COLLEGE
Cambridge

A True Cambridge Education

ST ANDREW'S COLLEGE, CAMBRIDGE

St Andrew's College Cambridge, A Member of Dukes Education. Together, We Are Extraordinary.

About St. Andrew's College Cambridge

- Central Cambridge location surrounded by the world-famous University colleges
- Top quality teaching staff, several of whom have studied at Oxbridge
- Excellent academic performance and university progression record
- Small class sizes and individual attention (approx. 8 students per class)
- Dedicated personal tutors with 3 meetings per week
- Carefully monitored student progress including regular assessments
- Scholarships available for all courses (both September & January intakes)
- Excellent Medicine programme
- Extensive UCAS support and university preparation
- Outstanding family-style boarding accommodation
- Excellent Pastoral Care
- Diversified Extra-curricular social activities, student clubs, sports and competitions.

Cambridge

- Stunning location
- Home to Cambridge University and its 31 colleges
- Student-centred city with wide variety of cultural events, entertainment and services
- Stunning architecture with River Cam flowing through the city
- Great shopping - famous brands and High Street

Cambridge

- Historical museums, art galleries and theatres
- Annual Cambridge University Shakespeare and Science Festival
- Numerous sporting opportunities with many sports clubs, gyms and rowing clubs
- Numerous parks and open spaces including the stunning Botanical Gardens next to the College

Academic Pathways – Pre-A Level

About Pre-A Levels

- This is an introductory course for those who aren't quite ready to study on an A Level or Foundation course. It offers students the opportunity to study and improve their English whilst doing some academic preparation. All students will study Maths and can also choose from science, business or art depending on their preference.
- There are 3 Pathways available. Students can choose the following options (pick 2 subjects from each pathway)
- Art (Fine Art, Textiles, and Photography)
- Business (Business Studies and Economics)
- Science (Biology, Chemistry and Physics)
- Students can progress to our A Level and Foundation courses via our internal tests. This means that it is less pressurised than a GCSE course.
- Students will take 3-4 GCSE subjects' national exams.

Course Content

Academic English	15 hours
Maths	4 hours
Sport	2 hours
Plus 2 of the options below (each option is 4 hours)	
Art	Photography
Business	Economics
Biology	Chemistry or Physics

Entry Requirements

Students must be 15 years old at the start of the course. Minimum IELTS 4.5 for September course and 5.0 for January intake (internal test available)

Course Content

Academic Pathways – Pre-IB

About Pre-IB

- This is an introductory course for those who aren't quite ready to study on an A Level, IB Diploma or Foundation course. It offers students the opportunity to study and improve their English whilst doing some academic preparation. All students will study Maths and can also choose from science, business or art depending on their preference.
- You will study 6 subject areas plus Creativity, Activity and Service (CAS), Theory of Knowledge (TOK) and the extended essay. You can choose subjects from the three 3 Pathways shown below. Art (Fine Art, Textiles, and Photography)
- Business (Business Studies and Economics)
- Science (Biology, Chemistry and Physics)
- You will also be able to study your native language and several others including German, Russian and Chinese.
- Students can progress to our A Level and Foundation courses or to the IB Diploma at a sister or partner school.
- Students will take 6 - 7 GCSE subjects' national exams.

Academic English	4 hours
Maths	4 hours
English / New Language	4 hours
World Literature	Literature from across the world in translation
Science (Block A)	Choose 1 option Biology, Chemistry or Physics
Humanities (Block B)	Choose 1 option English and Economics, Geography, History or Psychology
Arts (Block C)	Choose 1 option Fine Arts, Digital Arts (Photography) or Music

Entry Requirements

Students must be 15 years old at the start of the course. Minimum IELTS 4.5 for September course and 5.0 for January intake (internal test available)

Academic Pathways – 1 Year GCSE

- Students will complete 6 GCSEs with each subject having 4 hours per week
- Students will have an additional 3 hours of English for academic purposes, and 2 hours of sport.
- Students will choose 4 subjects from the following:
- Business, Economics, Fine Art, Photography, Biology, Chemistry, Physics,
- Latin, Native Language (if available)
- English Language GCSE and Mathematics GCSE are compulsory subjects
- IELTS - September (IELTS 5.0) or January (IELTS 5.5) intake

Academic Pathways – A Levels

About A Levels

- A Levels are the traditional route to university for UK students. Accepted by all universities worldwide
- Accepted qualification for Medicine
- Explore three or four subjects in-depth over two-year or 18-month period
- Ideal for students with academic and inquisitive minds who enjoy studying and perform well in exams
- Excellent standard in preparation for university
- Small classes - six or seven students per group
- Wider choice of subject options
- You must choose to study A Levels if you are aiming for a G5 university or medical school
- 2-Year, 18-month and 1-Year A-levels available

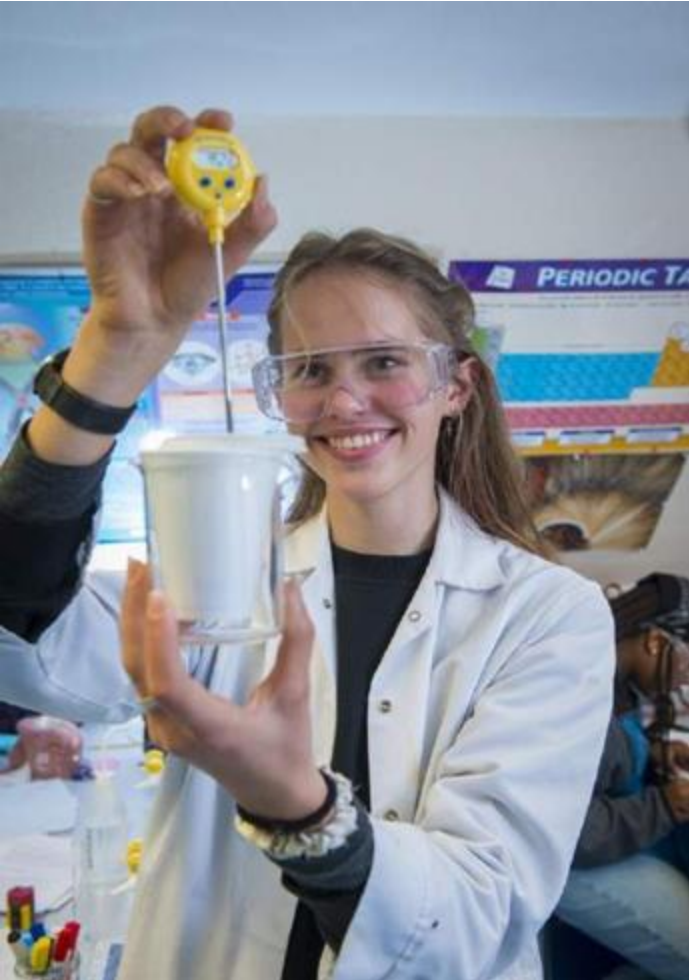

Subjects Offered

English Literature	Computer Science	Psychology	History
Maths	Biology	Sociology	Digital Photography
Chemistry	Physics	Economics	Art
Art	Business	Further Maths	Geography
Languages on request.			

Entry Requirements

Students must be 15.5 years old at the start of the course. Minimum IELTS 5.5 or equivalent for September and 6.0 for January intake

A-Level Results

A Levels - 2024

- 38% average A*-A grades
- 58% average A*-B grades
- 74% average A* - C grades

Academic Pathways – University Foundation

About Foundation Courses

- A fast and cost-effective route to university for students aged over 16.5 years. 9 months (September start) or 6 months (January start) to complete.
- Foundation courses are often designed with international students in mind and will always include language support such as IELTS and EAP
- Students who have not succeeded at A Levels can sometimes be successful on a Foundation course
- Foundation courses are accepted by most universities but are not accepted by Cambridge, Oxford, LSE, Imperial or UCL. If you are hoping to apply for those universities, you should study A Levels
- Over 80% of the Russell group universities accept foundation courses.
- Accredited by NCFE and internally assessed.

Pathways Offered

Business	Economics	International Relations	Law
Humanities	Science	Engineering	Fashion & Textiles
Art	Architecture	Computer Science & AI	Medicine

Entry Requirements

Students must be 16.5 years old at the start of the course. Minimum IELTS 5.0-5.5 or equivalent for September and 5.5-6.0 for January

University Foundation Results

University Foundation

- 100% offered places at UK universities 88% of students gained places at top universities for their subject

Edmund	Distinction with Honours	City, University of London	Aeronautical Engineering

Central Cambridge Location

- Cambridge has a world-class reputation for education, science and innovation, research and knowledge-based industries, as well as its historic environment
- Students who choose to study in Cambridge can take advantage of the wealth of opportunities available in areas such as music, art and sport
- Students can visit the 31 colleges that make up Cambridge University, visit museums and galleries and take part in frequent cultural events such as talks and festivals
- Our school and 10 boarding houses are located close to the city centre
- Cambridge is a short train ride from London (under 50 minutes to Kings Cross, St Pancras)

Small Classes and Individual Attention

- Small class sizes.
- Class size on average is 8 students.
-
- Experienced teaching staff
- Dedicated personal tutor with weekly timetabled sessions
- Additional 1-1 teaching available

Dedicated Personal Tutors

- Personal tutors meet their students three times a week in a group for one hour.
- The tutor will monitor and discuss student's progress in their academic subjects
- The tutor will check progress in IELTS. It is expected that students will improve by 0.5 per term with emphasis on writing skills as these are required for university
- Tutors will discuss test results from regular progress tests and from termly assessments
- Tutors will address any issues related to lateness or absence from classes
- Tutors will advise about the extra-curricular activities offered that are related to the student's hobbies and interests or that may help them academically
- Tutors will inform students about university visits and taster days
- Tutors will assist students with their applications to university through UCAS

Carefully Measured Student Progress

- Regular in class progress tests
- Termly formal assessments
- Weekly homework tasks
- Regular projects
- Termly reports in all subjects
- Attendance is rigorously monitored
- Additional tuition offered to students finding subjects difficult
- Progress in English is closely monitored to ensure students are on target to meet university IELTS entry requirements

IELTS Preparation

- Outstanding IELTS preparation
- Individual assessment based on a student's IELTS level at entry
- Reading, writing, speaking, listening
- Development of grammar, vocabulary, academic terminology, improve writing styles, gain confidence in speaking and improve listening skills
- Termly testing and regular in-class progress tests
- Additional support
- Homework to practice what learnt in class and students supported to identify what they need to self-study

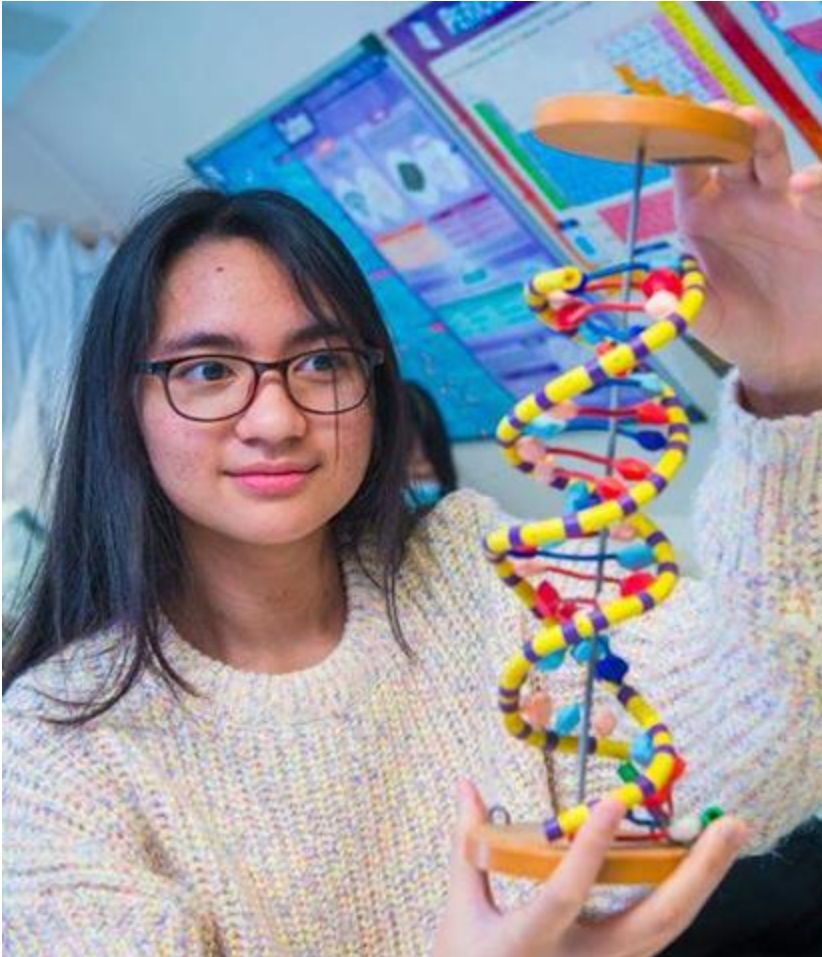

University Preparation

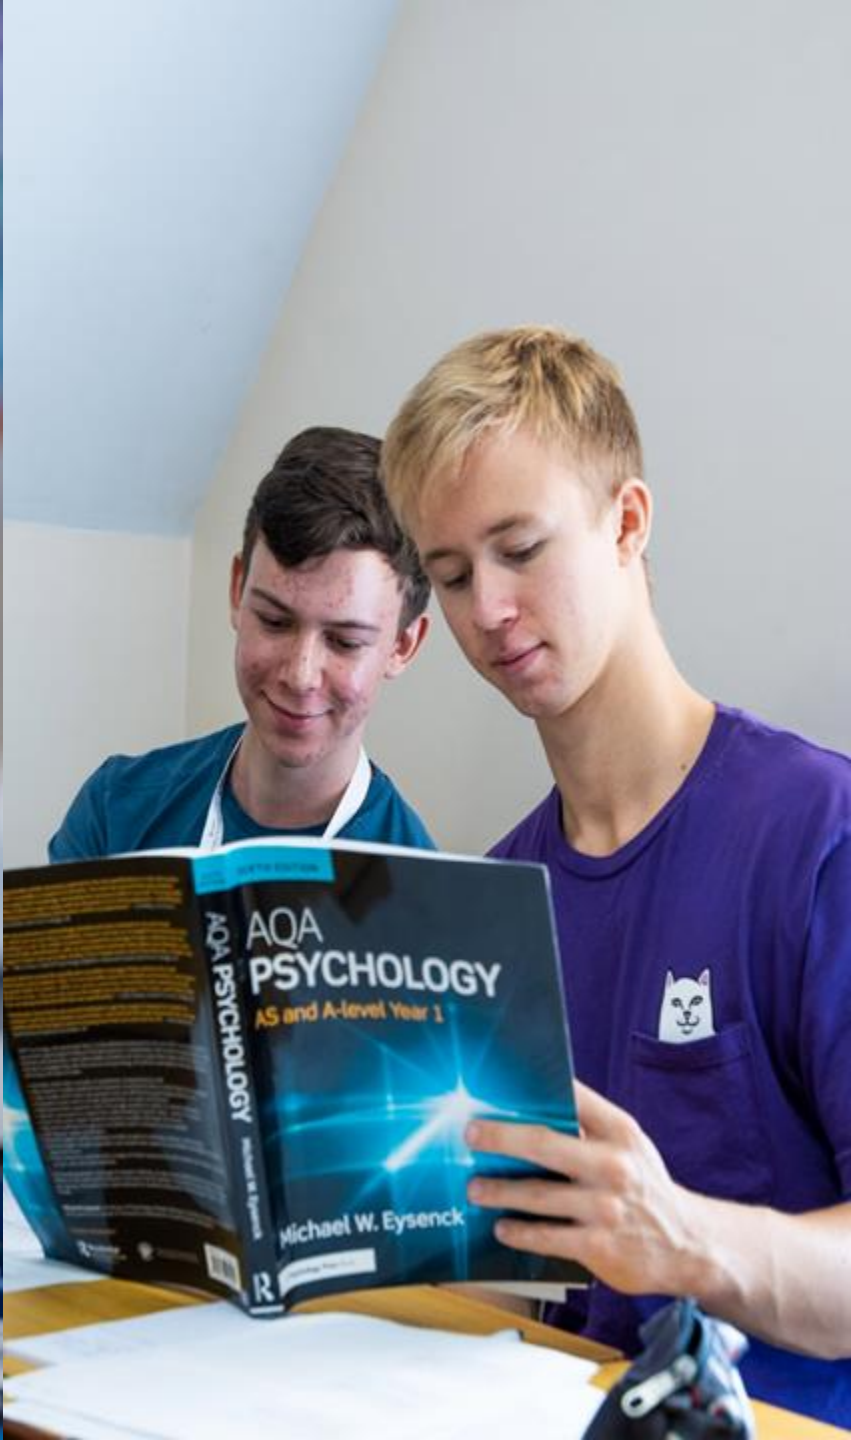

- St Andrew's has excellent connections with
- university admissions departments
- Tailored advice and support for every student through individual and group preparation sessions
- Introduction to UCAS
- Choosing your course and university
- The application process
- University Open Days
- Interview training
- Personal statement
- Applying
- Post application support

Oxbridge and G5 Programme

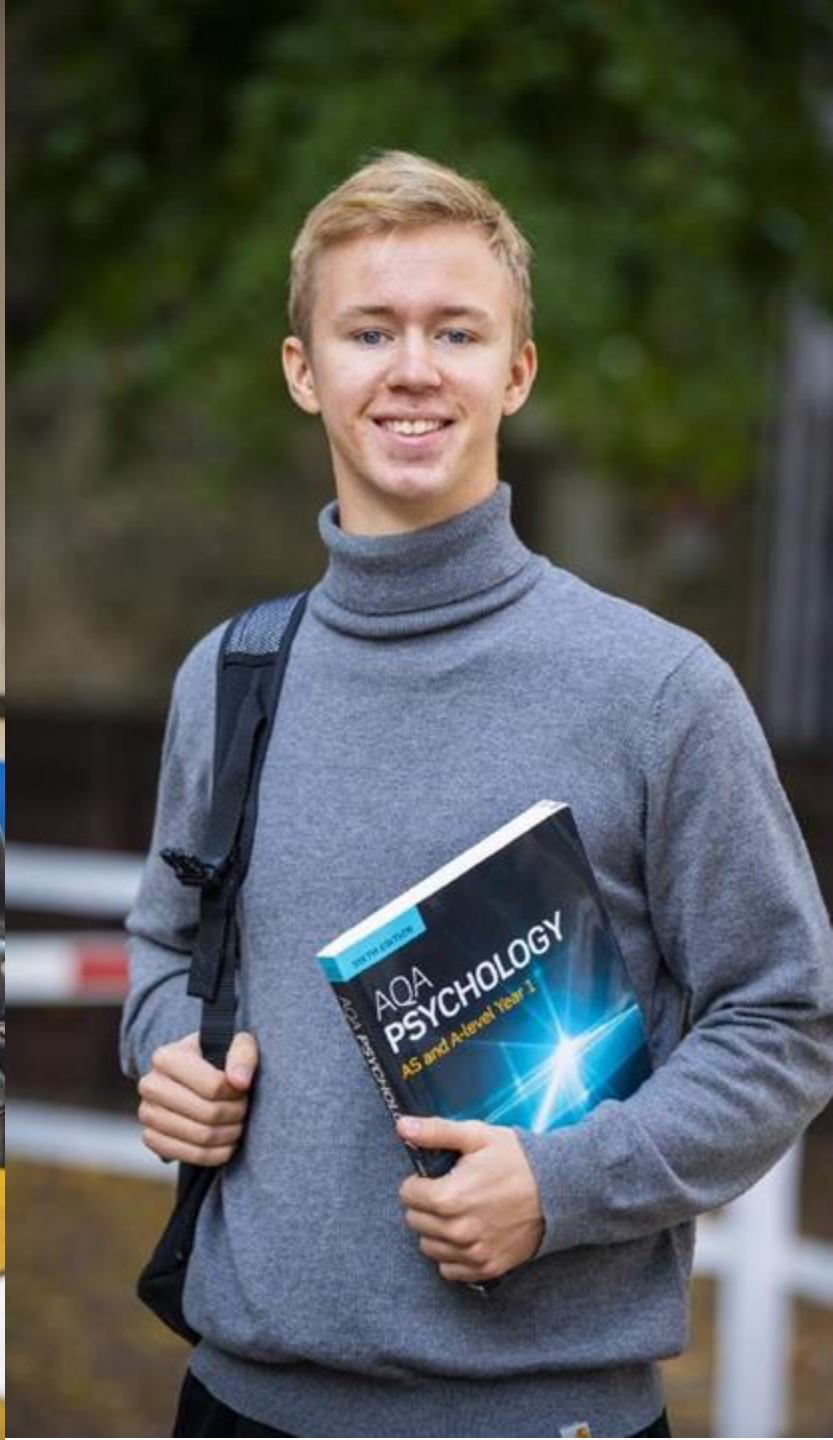

- For A Level students wanting to study Medicine or who are aiming for the G5 universities
- Designed by an array of Cambridge & Oxford Students, Professors & Admissions Staff the Extension Programme provides one-on-one tutorials focusing on five crucial aspects of your application:
 - Academic Performance
 - Subject knowledge
 - UCAS Applications
 - Entry Tests
 - Interview Preparation

Excellent Pastoral Care

- Team of House Parents and Personal Tutors who meet with students weekly
- Support any concerns
- Wellbeing sessions
- Assistance with medical needs and registration with GP
- Book medical, dental, optician or counselling appointments
- Available to talk to at any time
- Liaise with teaching staff
- Monthly newsletter on topics relating to health and wellbeing

Extra-Curricular

- Sports – regular sports activities take place in two sports centres with weekly matches and tournaments.
- Clubs and Societies including STEM, Student Council, Coding Club, Photography, Design, Music, Debating, Running, Critical Thinkers, Young Enterprise, Coding Club, Medics Club, and Creative Writing Club
- Competitions – creative writing, comic strip, photography, maths and science challenges, student commendations, Cambridge Uni Football League
- Social activities – astronomy night, film night, traditional afternoon tea, games night, May Ball, punting, museum and gallery visits, river walk, picnic, day trips, sports events, Cambridge University lectures, festivals and plays

- Monday to Friday, lunch is served 12.00 - 13.00 pm.
- The lunch offering includes soup of the day, main course/vegetarian option, dessert & fresh fruit.
- Dinner is served 17.00 - 19.00 pm and offers a main course/vegetarian option, sides, salad bar and dessert.
- Weekends include a brunch offering, “take away style” food on Saturdays and traditional roast dinners on Sundays.
- All meals are done in two sittings and are supervised by dedicated members of staff.

Alumni

Student Profile

Jeremy from Malaysia studied A Levels at St Andrews. He studied A Levels in Physics, Chemistry and Biology and achieved 3 A* grades and is now studying Medicine at the University of Leicester.

Whilst at St Andrew's, Jeremy took part in the enrichment and extension programme in order to support his application to study medicine. He worked alongside Cambridge University Tutors and received support in writing his personal statement, preparation for the UKAT exam and mock university interviews.

Alumni Student Profile

Carolina from Brazil studied A Levels at St Andrews graduating with A*A*A. She is now studying Physics with Theoretical Physics at Imperial College, London .

Carolina has just been chosen to become an intern at CERN in Switzerland out of 7000 applicants. Physicists and engineers at CERN use the world's largest and most complex scientific instruments such as purpose-built particle accelerators and detectors to study the basic constituents of matter.

Alumni Student Profile

Ngoc Han (Hannah) from Vietnam studied University Business Foundation graduating with Distinction with Honours and 8.5 in IELTS. She went onto study International Relations at King's College, London.

She was the top student at KCL deservedly winning prizes and scholarships. Hannah will commence her Masters at LSE in September 2021 and her ultimate goal is to work at the United Nations upon graduation.

Hannah is always more than happy to share her experience at St. Andrew's College Cambridge with other students. She also helps the college by attending international education fairs in Vietnam to talk to prospective students about her experience.

"I'm more than happy and honoured to be appointed as an alumni representative for the College. I could not have achieved what I have, had it not been for the teachers and staff at St Andrew's"

What Our Students Say

- “I really appreciated the mathematical department and the excellent teachers who taught the syllabus and went ‘outside the box’ to extend my knowledge for preparation at university”
 - Ben, UK
 - Imperial College London, Physics with Theoretical Physics
- “I wouldn’t have got this result without the help and support of my teachers, especially my Personal Tutor and Psychology teacher, Mrs Smith. She was there for me from day one and believed in me even when I didn’t believe in my own ability”
 - Jason, INDONESIA
 - University of Edinburgh, Economics

Enrichment Programme*

OXFORD UNIVERSITY OPEN DAY

Friday 20th September

Come to Oxford and discover for yourself student life at the world's no.1 University.

Open Days offer an ideal opportunity for you to explore Oxford, find out more about the courses, tour colleges and quiz tutors and students.

If you are interested in applying to Oxford University please register for the trip with Mr. Marshall.

Do you study Humanities or Social Science?

Join us for a trip to Cambridge University
Fitzwilliam College.

Monday 16th September

People, things, ideas and languages have crossed borders since the earliest of times. Such passages have entailed epistemic shifts and encounters, transactions and transformations. A Crossroads of Knowledge initiative, this public event brings together scholars, artists and activists to think about migration and what it does with, and to, knowledge.

If you would like to sign up for this trip contact

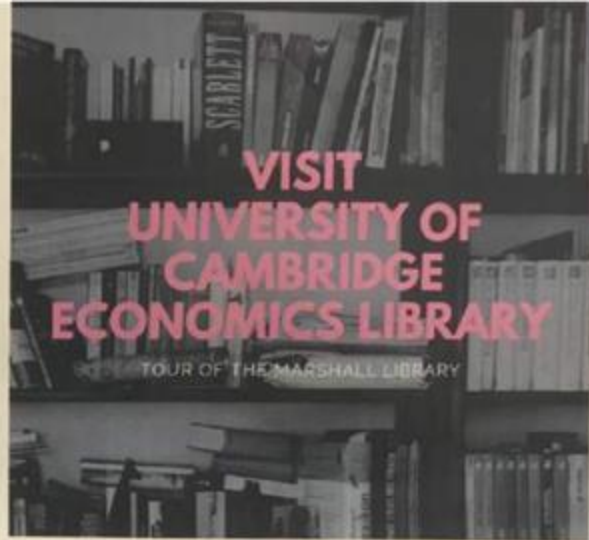

CONNECTING
COMMUNITIES AND
CULTURES

Do you study: Economics, Accounting or Business?

Join us for a trip on Friday 13th of September for a trip to
Cambridge University Faculty of Economics.

Friday 13th: 15:00 - 16:00

'A rare chance to see this library space designed by Sir Hugh Casson and hidden within the Austin Robinson Building on the Sidgwick Site. There will be tours on the hour and a chance to view some of our Rare Books, many of which were owned by Alfred Marshall, the founding father of economics. To mark the centenary of the publication of the Economic Consequences of the Peace by John Maynard Keynes, there will also be a display of literature inspired by Keynes's decision to walk out of the Paris Peace Conference and resign his position at the Treasury.'

Word cloud containing terms: Finance, Business, Growth, Motivation, Marketing, Leadership, Revenue, Environmental Influences, Enterprise, Branding, Demand, People, Supply, Government, Competition, Production, Costs, Globalisation, Business Model, Business Structure, Ideas, Ideals, Innovation, Ethics, Recruitment.

his trip

Do you study Business, Engineering or Computing?

Monday 20th September: 19:30-21:00

Cambridge has become synonymous with innovation but is also facing many challenges that are likely to impact its future trajectory. This presentation will be divided into three parts that will then lead to an open discussion. Firstly, the focus will be on the way in which this regional cluster has developed the capabilities to be internationally leading for innovation. Secondly, the characteristics of the present innovation cluster - and the unusual ways it works - will be explored. Finally, some of the challenges that have arisen as a result of success and the issues that need to be addressed will be presented.

Professor Tim Marshall

University of Cambridge
Institute for Manufacturing

Students who would like to join the lecture should contact Mr. Marshall.

Do you want to study Medicine or Science at University?

Join us for a trip to Cambridge University
Sainsbury Laboratory

Saturday 14th September: 14:00-15:30

Discover your inner scientist by joining the people who work at the Sainsbury Laboratory for a hands-on tour of the modern facilities they use to explore the inner workings of plants.

Oxbridge, G5
Universities
or Medicine?**

Monday 23rd September: 19:30-20:30
First Year A-Level Students
Invitation Only

Over two years the Extension Programme builds on St Andrew's world class teaching & Extra-Curricular Opportunities, providing the 'polish' required to not only gain entry to Oxford, Cambridge & other top universities but to succeed on those chosen courses and future careers. Every student has a unique Extension Programme, designed to nurture individual strengths and improve upon weaknesses.

Students who would like to join the Extension Programme should express their interest to their personal tutor.

ST. ANDREW'S
COLLEGE
Cambridge

**Applying to
Oxford & Cambridge
University**

Entrance Requirements

- 1-Year Pre A-level: at least 15 years old, English level 4 for Sept and 4.5 for Jan intake
- 1-Year GCSE: at least 15 years old, English level 5 for Sept and 5.5 for Jan intake
- A-level: at least 16 years old, English level 5 for Sept (2-Year) and 5.5 for Jan (18-month) intake
- University Foundation: at least 17 years old, English level 5 for Sept (9-month) and 5.5 for Jan (6-month) intake

- All courses have September & January intakes.
- All students are required to take the internal admissions test. Students who study Foundation need to submit
- UKVI Academic IELTS for visa purposes.

Admission Procedures

- Passport copy + birth certificate + transcript records within past 2 years + registration form
- Pay a non-refundable 420GBP registration fee
- Take internal test and interview (Students who are below 18 years old qualifying for the Child Student visa could take the 50 mins online test). For students above 18 years old and students who study University Foundation course, they need to submit UKVI IELTS for visa purpose
- Pay a 2,500GBP deposit to confirm place (refundable after the student has completed the course)
- First term's fees or annual fees before the CAS is issued
- College assists with airport transfer and student arrival
- Students under 18 provide guardianship information before arrival

Fees - Boarding Option

- Fees can be paid by term and divided into 3 times per year or paid in full for the year.
- First term's fees are required before CAS (Confirmation of Acceptance of Studies) is issued.
- “Full boarding” means including tuition fee, accommodation and 3 meals each day.
- A house parent lives onsite in each of the halls and a school nurse is available Monday to Friday at the medical centre.
- Price difference is from the room rate difference (twin ensuite, single ensuite, premium single ensuite)

Scholarships

- **Scholarship requirements:**
- 10% off tuition fees - IELTS 6.5 with no band below 6.0, Transcript A/A*, Internal & Scholarship tests & Interview
20% off tuition fees - IELTS 7.0 with no band below 6.5, Transcript A/A*, Internal & Scholarship tests & Interview
35% off tuition fees - IELTS 7.5 with no band below 7.0, Transcript A/A*, Internal & Scholarship tests & Interview
Scholarship policy applies to Pre-A, A-level and Foundation courses both September and January intake.
- Scholarship will be offered to the student during the whole duration of study with St. Andrew's. However, scholarship will be reviewed annually and are subject to good academic performance and behaviour. To obtain a continuation of the scholarship a student would need at least 2 As in the first year of A Level or at least 4 grade 9s at GCSE and an attendance level of at least 95% in all subjects.
- Students below the age of 18 can choose to take our English entry tests, based on similar criteria to IELTS, to be eligible for both a place and/or a scholarship. Students who are above 18 or who study the Foundation course must present a UKVI IELTS certificate for the visa purpose.

“We inspire our students from a theoretical and practical point of view which helps them appreciate their subjects and achieve top grades.”

Denis Iuculeevschii
Head of Science
